Additional Note: The list of authorized resellers is provided for informational purposes only. Cisco does not guarantee that the list of authorized resellers is complete and that the authorized resellers will be able to sell Cisco products to the LEA Group members under the contract, as these authorized resellers have not signed a Subcontract Agreement with Cisco to date and will sign such a contract after Cisco will be awarded the contract. Cisco has, however, in the past held this contract with SDE and has

successfully been able to sell Cisco products to the LEA Group members through its authorized resellers. This list of authorized resellers may be updated in the quarterly report.
